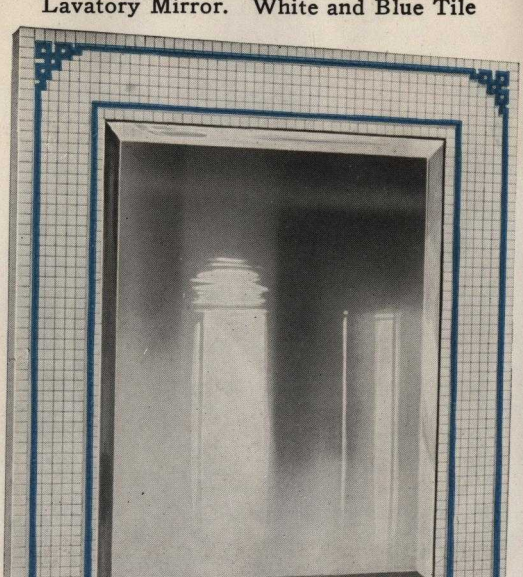
# Firmil Tile-Mosaic Mirror

## Lavatory Mirror. White and Blue Tile



"Firmil" Tile-Mosaic is a water-proofed composition that will not frizzle nor crack and can be washed and cleaned like ordinary tile, but unlike tile, they are very light and do not add any weight to the product.

"Firmil" Tile-Mosaic Mirrors are hand made, each little square is fitted by hand, each little block is driven into the wood by a process that makes it impossible to come out. It takes one thousand four hundred blocks to make the frame.

# Polished Plate Glass Tops

Here are some of the advantages and economies of a glass-top, for Dressers, Office Desks, etc.

It protects the polished surface—which cannot be scratched by silver or china; nor stained by ink, perfume or liquids; nor charred by hair curlers, matches or cigars.

Not only is the wood completely safe-guarded, but its grain and finish are enhanced and enlarged.

Delicate and elaborate scarfs and doilies can be placed underneath the glass.

The glass is easily wiped clean. Being very thick plate, it is difficult to break; in fact, with ordinary care, it will last a life-time.

The whole effect is pleasing to the eye. It gives a neat appearance, lends graceful lines, and adds a tone of distinction to the furniture.
